## 1. Scope of this Deliverable

The purpose of this deliverable has been to produce a video comprising the main results for DEVOTES, as reported in the Task 7.2.4 “DEVOTES Documentary and Book”. This task was transferred from Ecoreach to SALT after SALT entered the consortium in 2015.

The video has been divided into chapters, each one covering an operational work-package of the project. Each video is approximately 2 minutes long - ideal for internet and for use in presentations. All the videos were launched at the Final Conference of DEVOTES, where they served as introductions to the different blocks in the program.

## 2. Video chapters

Seven video-chapters were produced to present the main outcomes of DEVOTES. Each of the chapters is built upon an interview with the various work-package leaders. The WP leaders explain the main purpose of the work package and the main outcomes of DEVOTES. All the chapters are edited into one long-version where the viewer meets all the WP leaders and gets a good overview of all the work that has been carried out throughout this four-year-long project.

The DEVOTES movie, including all chapters, is available on YouTube at the link: <https://youtu.be/-pW7uH6MMQk>. All videos were published online and promoted during the week of the DEVOTES Final Conference (17<sup>th</sup>-19<sup>th</sup> October 2016.)

### 3. Other Videos

In addition to the seven chapters, three short teasers were produced with the purpose of attracting people to join the final conference.

The three teasers are available online at the following links:

- Alice Newton (published in May 2016): <https://www.youtube.com/watch?v=TSqT58teodc>

- Angel Borja (published in July 2016): [https://www.youtube.com/watch?v=3s\\_udPish-c](https://www.youtube.com/watch?v=3s_udPish-c)

- Jacob Carstensen (published in September 2016): <https://www.youtube.com/watch?v=b42SQCFk0QI>

Several promotional videos were produced during the lifetime of the project (reported also in Milestone 35 "Distribution of the project movie"):

- "Futuris", the award-winning program of EuroNews on European science, research and innovation, selected DEVOTES as means to bring knowledge on the effects of human activities on marine ecosystems and raise general interest about the environmental status of European seas. SYKE organized a cruise in the Baltic on a research vessel as well as a visit to the laboratories. In addition to the SKKE team, one representative from the AZTI team participated in the filming. Once edited by the Futuris team, the program went on air starting from 25th April every day until 1st May 2016 a period that included the International environment day, International the day of the oceans and the International biodiversity day. The Futuris program

has been made available in all the 13 languages that EuroNews supports at the following link: <http://www.euronews.com/programs/futuris/> and on the EuroNews YouTube channels (direct link [https://youtu.be/O\\_sXq2YYSNE](https://youtu.be/O_sXq2YYSNE)).

- A total of 20 videos on DEVOTES research and training activities (i.e., development of ARMS and ASUs, promotion of the DEVOTES Summer School, and video tutorial about the NEAT software) have been produced by AZTI, Ecoreach and MARILIM and published in the DEVOTES YouTube Channel.

All the videos are available for users through the DEVOTES website and the DEVOTES dedicated YouTube channel at the link <https://www.youtube.com/user/DEVOTESproject>
